“What Do I Want To Do When I Grow Up?”
Exploring Networking Opportunities

By Katie Horvath

As I near the end of my doctoral dissertation I still have two burning questions: 1) what can I do after I finish my PhD and 2) what do I want to do after I finish my PhD? We are all aware of the traditional academic career path: you complete 1 or 2 academic post-docs and acquire enough publications to become grant competitive, ideally culminating in a junior faculty position at a research institution. However, I find following a career outside of academia appealing.

I began investigating non-academic opportunities at the annual NIEHS Biomedical Career Fair last spring and was privileged to hear Dave Jensen, a moderator on the Science Careers online forum, speak. Dave believes that you should approach a job search like you would a research project by meeting new people and learning about what they do, i.e. networking.

Networking has always intimidated me. The thought of approaching random strangers with my prepared “elevator speech,” makes me break out into a sweat. Nevertheless, I decided to take Dave’s advice and give networking the old college (or grad school) try. My sister Monica, a bioinformatics PhD who succeeded in landing a “real job,” suggested that I investigate the RTP chapter of the Healthcare Businesswomen’s Association (HBA). I attended one of their “speed-networking” events. What a phenomenal experience! Like “speed-dating” you meet with multiple professionals to exchange business cards and determine if the other person is a useful professional contact. When the timer rings, you meet with a new person, allowing you to make multiple connections in one evening. I made several contacts at the speed networking event, including a toxicologist who lives in France.

People who are helped through networking are usually willing to pay it forward. Although I cannot say that meeting new people while networking no longer puts butterflies in my stomach, I am gaining confidence as I practice. Through networking, I have discovered that the previously scary world outside of academia has become a little smaller and is actually filled with friendly, talented people. I hope that as I progress further in my career that I will be able to pay everyone’s advice forward and help someone else down the road.

Katie Horvath is a 4th year Tox student at UNC and an HHMI Translational Medicine Trainee.
Upcoming TIBBS-Sponsored Events

Friday 11/19  12:00 to 1:00 in Bondurant G100
Careers in Clinical and Translational Research
Come hear from successful scientists about translational research care- 
ers paths in academia, industry, and government. Panelists include:

- Daryl Zeldin, MD. Director of the NIEHS Clinical Research Center
- Christopher Gregory, PhD, Senior Director of Clinical Development at 
  Clinsys, a local clinical research organization
- A translational researcher from academia
- A drug development scientist from industry

This event is co-sponsored by TIBBS and the Program in Translational Medicine as part of the Translational Medicine Lunch and Learn series

Click here to register

Thursday 11/18 12:00 in the MBRB 1st floor lobby
Monthly TIBBS Social — Chili Cook Off!
This month’s TIBBS social promises a mouth 
watering variety of home-made chili recipes complete with chips and all the toppings you can imagine.

No registration is necessary, but please bring your OneCard to be served

Friday 12/2 12:00 to 1:00 in Neuroscience Research Bdg 3118
Alumni Lunch with Dr. Daniel Arneman

Dr. Daniel Arneman graduated with a PhD from UNC in 2007. As a graduate student he struggled to identify a satisfying career path. Al- 
though the path he found has taken several unexpected twists he has in three short years achieved remarkable success and learned many 
things along the way.

Daniel is eager to relate his experiences with career indecision, following your passions, and networking your way to success with you at this lunch event.

Read more about Daniel’s success in the NYTimes

Accepting Defeat:
The Neuroscience of Screwing Up.

Follow the link above to an intriguing article that explains how successful scientists learn from failure.

Thanks to Dr. Adri- enne Cox, for the link.
Pioneering Postdoc Programs

Your postdoctoral training period is the ideal time to hone your skills and get needed experience that will make you the perfect candidate for the career of your choice.

There are many unique postdoc programs that train fellows in a variety of in-demand skills and these training opportunities are often shorter and more structured than the traditional academic postdoc. They teach a specific skill set and can be a fast track to a “real job” afterwards.

Each month in the TIBBS Times we’ll highlight a different fellowship opportunity. This month’s spotlight is on Genentech’s prestigious industry postdoc program.

Where on Campus is That??

If you’re one of the first ten PhD students to correctly identify the location of this picture on UNC campus you’ll get a free candy bar! Email your guesses to pdb@unc.edu. Good luck!

SAGE Bionetworks Postdoc Training in Bioinformatics

SAGE bionetworks, a Seattle based Medical Research Organization, administers a National Cancer Institute-funded, 2-year postdoctoral training program for recent PhD graduates with experience in bioinformatics or cancer biology. Fellows will have an opportunity to both contribute data to this platform from their host institution and receive advanced training on analysis methods. During the second year the fellows will advise and teach the approaches to other cancer researchers.

Read the NCI award press release from SAGE
Click here for more information from the SAGE Website

Thank you to Dr. Rose Brannon for submitting this Pioneering Postdoc Program
November 2010 Seminars (page 1 of 4)

November 1st  
**Cyclical Logic: Probing CDK Network Function with Chemical Genetics**  
Presented by Robert Fisher, MD, PhD, Associate Professor of Structural and Chemical Biology, Mount Sinai School of Medicine. Sponsored by Bill Marzluff, held in G100 Bondurant Hall at 12pm. For more information: [http://gmb.unc.edu/seminars/fridayseries.html](http://gmb.unc.edu/seminars/fridayseries.html)

Fine-mapping octanoic acid tolerance in Drosophila sechellia and reproductive isolation in D. melanogaster  

**The Association Between Body Mass Index and Head and Neck Cancer by Race.** Presented by Dr. Jessica Jensen, UNC Chapel Hill. Held in 2101G McGavran Greenberg at 1pm.

November 2nd  
**The genetics of adaptation and speciation in an RNA virus**  
First annual graduate student-selected Biology faculty speaker  
Presented by Christina Burch, UNC Chapel Hill. Held in Coker 201 at 4pm.

**Design and Utility of Bispecific Antibodies**  
Presented by Dr. Stephen Demarest, Biogen. Sponsored by Biochemistry and Biophysics Seminar. Held in 1131 Bioinformatics at 11am.

**Pharmacogenomics of acute lymphoblastic leukemia**  
Presented by Mary Relling, PharmD, St. Jude children’s Research Hospital. Sponsored by IPIT Seminar Series. Held in 1131 Bioinformatics at 4pm.

**Surviving and thriving with the infected host: stress response in a human fungal pathogen.**  
Presented by Andrew Alspaugh, MD, Duke University Medical Center. Sponsored by Microbiology and Immunology Seminar. Held in 1131 Bioinformatics at 9:30am.

November 3rd  
**Criminal Intent: What normal progenitors teach us about the biology of brain tumors**  
Presented by Robert J. Wechsler-Reya, PhD, Duke University Medical Center. Sponsored by UNC Lineberger Cancer Center Seminar. Held in 00-002 Joseph S. Pagano Conference Room, UNC Linberger Cancer Center at 4pm.

---

**PhD Comics by Jorge Cham, PhD**

[www.phdcomics.com](http://www.phdcomics.com)
Nov 3rd (con’d)

Asymmetric Autocatalysis and the Origins of Homochirality
Presented by Kenso Soai, PhD, Tokyo University of Science.  Sponsored by MedChem Seminar Series.  Held in 2001 Kerr Hall at 3pm.

“Comparing the localization of organic cation transporter 1 in mouse intestine and human intestine models”
Presented by Kevin Han.  Held in Beard Hall, room 116 from 4:00pm-5:30pm.

November 4th

The Role of Inhibition in Neural Circuit Plasticity and Function
Presented by Yingxi Lin, PhD, Assistant Professor of Brain and Cognitive Sciences, MIT.  Sponsored by Neuroscience Center—Thursday Seminar Series.  Held in 2231 bioinformatics Bldg at 12:30pm.

November 5th

DNA Methylation Profiling in Clinical and Epidemiologic Studies of Cancer
Presented by Dr. Kathleen Conway-Dorsey, UNC Chapel Hill.  Sponsored by Cancer Epidemiology Seminar Series.  Held in 2101G McGavran Greenberg

How to ‘test’ the magnetic imprinting hypothesis of natal homing?

November 8th

“Modulation of Emotional Neural Circuitry: Implications for Alcoholism and Affective Disorders”
Presented by Tom Kash, Ph.D., Assistant Professor, UNC Department of Pharmacology and Bowles Center for Alcohol Studies.  Sponsored by Bowles Center for Alcohol Studies Seminar.  Held in 124 Taylor Hall from 12:30pm-1:30pm

November 9th

Rapid genome evolution and hybrid lethality in Drosophila
Presented by Dan Barbash, Cornell University.  Held in Coker 201 at 4pm.

“Multiscale modeling and design of biological molecules”
Presented by Dr. Nikolay Dokholyan, UNC Chapel Hill.  Sponsored by Biochemistry and Biophysics Seminar.  Held in G202 MBRB from 11am – 12pm.  For more information: http://www.med.unc.edu/biochem/events/2010-fall-seminars/dokholyan

November 10th

APC Regulation of DNA Demethylation in Intestinal Cell Differentiation and Colorectal Cancer
Presented by David A. Jones, PhD, Huntsman Cancer Institute, University of Utah.  Sponsored by UNC Lineberger Cancer Center Seminar.  Held in 00-002 Joseph S. Pagano Conference Room, UNC Lineberger Comprehensive Cancer Center at 4pm.

Developing Small Molecule Inhibitors of Arfgaps
Presented by Wei Sun, UNC-Ch, School of Pharmacy.  Held in Kerr Hall 2001 at 3pm.
November 2010 Seminars (page 3 of 4)

Nov 10th (con’d)

Eight Meeting of the Globalization of Pharmacy Education Network
Keynote speaker will be Oliver Smithies, DPhil, co-recipient of the 2007 Nobel Prize in Physiology.
His lecture will be titled “Importance of Translating Basic Biomedical Research into Medicine.” Held
4:30 to 5:30 in Alumni Hall, George Watts Hill Alumni Center.

“Albumin as an Endogenous Carrier of Oligonucleotide”
Presented by Patrick Guley. Sponsored by the Division of Molecular Pharmaceutics. Held in Beard Hall, room 116 from 4:00pm – 5:30pm.

November 11th

Measuring Behavioral Phenotypes: Insights from Prader-Willi and Williams Syndromes
Presented by Elisabeth Dykens, PhD, Professor Intellectual and Developmental Disabilities, Vanderbilt.
Sponsored by Neuroscience Center—Thursday Seminar Series. Held in 1131 Bioinformatics Bldg at 12:30pm. For more information: http://www.med.unc.edu/neuroscience/events/thursday-seminar-series/uncnc-fall-seminar-series-elisabeth-dykens-phd

November 12th

“Cell Polarity Spindle Orientation and Epithelial Morphogenesis”
Presented by Quansheng Du, PhD, Associate Professor-Department of Neurology-Medical College of Georgia. Sponsored by GMB Friday Seminars. Held in G100 Bondurant Hall at 12pm.

A new phylogenetic framework for the Bivalvia

November 16th

The developmental physiology and evolution of body size: Studies with Manduca sexta
Presented by Fred Nijhout, Duke University. Held in Coker 201 at 4pm.

Vibrio cholerae and cholera: Vaccine development, TLRS activation and in vivo gene expression
Presented by James Kaper, PhD, University of Maryland School of Medicine. Sponsored by Microbiology and Immunology Seminar. Held in 1131 Bioinformatics at 9:30am.

Histone Acetylation and The DNA Damage Response
Presented by Alain Verreault, Montreal. Sponsored by Biochemistry and Biophysics Seminar. Held in 1131 Bioinformatics from 11am-12pm. For more information: http://www.med.unc.edu/biochem/events/2010-fall-seminars/verreault

Genetics and Therapy of Myeloid Malignancies
Presented by Levine Ross, MD, Memorial Sloan-Kettering Cancer Center. Sponsored by Hematology/Oncology Grand Rounds. Held in 00-0002 Joseph S. Pagano Conference Room, UNC Lineberger Cancer Center at 4pm.

SPECIAL Topic: Ethics Discussion with Center for Genomics & Society
Sponsored by GMB Tuesday Seminars. Held in Pagano Conference Room of Linberger Cancer Center at 9am.
November 2010 Seminars (page 4 of 4)

November 17th
"Chemical Approaches for Interrogating RNA Tertiary Structure"
Presented by Phil Holman. Sponsored by the Division of Medicinal Chemistry and Natural Products. Held in Kerr Hall, room 2001 from 3:00pm – 4:30pm.

"Physicochemical characterization of a prodrug chelating agent for radionuclide decorporation"
Presented by Katsuhiko Sueda, Sponsored by the Division of Molecular Pharmaceutics. Held in Beard Hall, room 116 from 4:00pm – 5:30pm.

Meta-Analysis of Dose-Finding Studies.

November 19th
Joint Effects of Alcohol Consumption and Polymorphism in Alcohol and Oxidative Stress Metabolism Genes on Risk of Head and Neck Cancer
Presented by Dr. Anne Hakenewerth, UNC Chapel Hill. Sponsored by Cancer Epidemiology Seminar Series. Held in 2101G McGavran Greenberg at 1pm.

Responses of AdElie penguins to increased breeding constraints

November 22nd
Mechanotransduction in the Vasculature
Presented by Ellie Tzima, PhD, Assistant Professor, Cell & Molecular Physiology. Sponsored by Cell & Molecular Physiology. Held in G202 MBRB at 12pm.

November 23rd
Genomics of Tolerance
Presented by Christophe Benoist, MD, PhD, Harvard Medical School. Sponsored by Microbiology and Immunology Seminar. Held in 1131 Bioinformatics at 9:30am.

November 29th
“Binge Alcohol Drinking is Associated with GABAA alpha2-Regulated Innate immunity in the Central Amygdala”
Presented by Harry June, Ph.D., Professor of Psychiatry, Director of Substance Abuse, Professor of Pharmacology and Experimental Therapeutics, University of Maryland School of Medicine. Held in 124 Taylor Hall from 12:30pm -1:30pm.

November 30th
Generation neurons and glia one step at a time
Presented by Dr. Steve Crews, UNC Biochemistry and Biophysics. Sponsored by Biochemistry and Biophysics Seminar. Held in 1131 Bioinformatics at 11am.

Defining the earliest events of HIV sexual transmission
Presented by Thomas Hope, PhD, Northwestern University Medical School. Sponsored by Microbiology and Immunology Seminar. Held in 1131 Bioinformatics 9:30am
November 2010 Campus Events and Workshops (Page 1 of 5)

November 1st
Galaxy
Galaxy is a web based tool that allows users to input data sets from a variety of sources, including the UCSC Browser and Ensembl, and manipulate and analyze these data sets. A variety of types of sequence/text manipulation tools are available. These include a variety of common Linux/Unix type functions and all of the EMBoss tools. Its major role is in enabling a variety of genomics level manipulations on custom large data sets, including some analyses useful for Next Generation Sequencing (NGS) data. The use of these NGS tools will be covered. Galaxy has a workflow generation capability so that users can set up pipelines based on tools within Galaxy, save them and re-use them. All attendees should go to: http://main.g2.bx.psu.edu/ and register for an account under the User dropdown menu prior to the workshop. 24 seats available. Held in HSL – 307 from 2pm – 4pm.

Galaxy (Online)
Galaxy is a web based tool that allows users to input data sets from a variety of sources, including the UCSC Browser and Ensembl, and manipulate and analyze these data sets. A variety of types of sequence/text manipulation tools are available. These include a variety of common Linux/Unix type functions and all of the EMBoss tools. Its major role is in enabling a variety of genomics level manipulations on custom large data sets, including some analyses useful for Next Generation Sequencing (NGS) data. The use of these NGS tools will be covered. Galaxy has a workflow generation capability so that users can set up pipelines based on tools within Galaxy, save them and re-use them. All attendees should go to: http://main.g2.bx.psu.edu/ and register for an account under the User dropdown menu prior to the workshop. 1 seats available. Held Online from 2pm – 4pm.

November 2nd
Creating Effective Assignments
Held in 318 Wilson Library, CFE Conference Room from 12:30pm – 1:30pm. For more information: http://www.abcsignup.com/reg/event_page.aspx?ek=0052-0006-a4040151c4834d41bb998a60a3b43d9f. To register: https://itsapps.unc.edu/abcsignup/ABCServlet

RefWorks
This workshop will cover several of the widely used tools that are commonly being used for accessing and analyzing SNP data. This will include an introduction covering some of the basic concepts and background of HapMap and this will be followed by a hands-on guide through the HapMap website, the SNP analysis tool Haploview and the HapMart website. 21 seats available. Held in HSL-307 from 3pm – 4pm.

November 4th
Carolina Seeds of Innovation
Sponsored by the Office of Technology Development. Held in Sitterson Hall, Room 014 from 5:30pm – 6:30pm. Networking Session at Top of the Hill Restaurant & Brewery, Tank Room—2nd floor from 6:30pm- 8:30pm. For more information: http://otd.unc.edu/carolina_innovations_seminar.php

November 5th
How to be an Effective Mentor
Held in Carroll Hall, Freedom Forum Conference Center from 12:00pm-1:30pm. For more information: http://www.abcsignup.com/reg/event_page.aspx?ek=0052-0006-aa257a76f844d096295d4aaeb0531e To register: https://itsapps.unc.edu/abcsignup/ABCServlet

Mouse Handling and Techniques
The IACUC Mouse Handling and Techniques class is a hands-on wet lab designed to teach students basic techniques in mouse handling. Techniques taught include restraint, simple injections, bleeding techniques, anesthesia, and euthanasia. Prerequisites: Research Profile, Lab Worker Form, Animal Handler Form, and IACUC/DLAM on-line orientation (http://cfx3.research.unc.edu/iacuc_reg/). Sponsored by Office of Animal Care and Use. Held in Glaxo 148 from 1:00pm-3:30pm. This event is full. To join waitlist: http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22688&new=1
November 2010 Campus Events and Workshops (Page 2 of 5)

November 6th
6th Annual UNC Eating Disorder Conference
Author of "Born Round: A story of Family, Food and a Ferocious Appetite"
Presented by Frank Bruni, former New York Times food critic. Sponsored by the UNC Eating Disorders Program and the UNC Center for Women's Mood Disorders. Held in The Friday Center from 8am-5pm.

November 8th
HapMap Resources (Online)
This workshop will cover several of the widely used tools that are commonly being used for accessing and analyzing SNP data. This will include an introduction covering some of the basic concepts and background of HapMap and this will be followed by a hands-on guide through the HapMap website, the SNP analysis tool Haploview and the HapMart website. 9 seats available. Held Online from 2pm – 4pm.

HapMap Resources
This workshop will cover several of the widely used tools that are commonly being used for accessing and analyzing SNP data. This will include an introduction covering some of the basic concepts and background of HapMap and this will be followed by a hands-on guide through the HapMap website, the SNP analysis tool Haploview and the HapMart website. 21 seats available. Held in HSL – 307 from 2pm – 4pm.

November 9th
Basic EndNote
This Basic EndNote class will touch on the fundamental functions of the EndNote software. Building your library, managing your sources, and inserting your citations into your documents will be the focus of what we will cover. This class is structured for new to beginning users. 3 seats available. Held in HSL-329 from 3pm – 4pm

International Coffee Hour
All international and American students, scholars, faculty, staff, and families welcome! Registration not necessary. Held in 4003 FedEx Global Education Building from 5pm – 6pm.

Aseptic Techniques
The IACUC Aseptic Techniques class is a hands-on wet lab designed to teach students how to maintain a sterile field during survival rodent surgery. This course is mandatory for all Laboratory Animal Coordinators in laboratories performing sterile rodent surgery. All UNC rodent users who will be performing sterile survival surgeries are encouraged to attend. Alternatively, training and certification may be provided through a certified proficient Laboratory Animal Coordinator. Prerequisites: Research Profile, Lab Worker Form, Animal Handler Form, and IACUC/DLAM on-line orientation (http://cfx3.research.unc.edu/iacuc_reg/) Sponsored by Office of Animal care and Use. Held in Glaxo 148 from 1:00pm – 3:30pm. This event is full. To join the waitlist:http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22691&new=1

November 10th
Visual Media in the Classroom
Held in Undergraduate Library, Room 205 from 10am-11:30am. For more information: http://www.abcsignup.com/reg/event_page.aspx?ek=0052-0006-4f176c5595e648b987463a59fe4a7941.To register: https://itsapps.unc.edu/abcsignup/ABCServlet

Sequence Similarity Search: BLAST (NIH Library class via videoconferencing)
This course offers a practical introduction to nucleotide and protein sequence similarity searching using NCBI's BLAST family of programs. Exercises range from simple searches to creative uses of the BLAST programs. Topics to be covered include: - Advantages of different BLAST programs such as blastn, blastp, tblastn and when to use which one - How to limit your searches to make them more specific - How to understand the results. 12 seats available. Held in HSL-307 from 10:00am – 12:30pm.
November 2010 Campus Events and Workshops (Page 3 of 5)

Nov 10th (con’d)
Careers in Biology Panel
Hear professionals discuss opportunities in this career area. Business casual attire recommended. RSVP is preferred but not required. Held in 107 Wilson Hall from 6pm – 7pm.

Laboratory Animal Coordinator Lecture
The Laboratory Animal Coordinator (LAC) Lecture orients newly appointed Coordinators to the duties and responsibilities of being a LAC. This lecture is mandatory for all newly appointed LAC’s and all Principal Investigators are encouraged to attend. Class size is extremely limited, so newly appointed LAC’s or PI’s are given preferential seating. Held in Glaxo 148 from 10:00am-10:45am. To register: http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22697&new=1

November 11th
Establishing North Carolina Residency for Tuition Purposes
This is an informational session about the application process to apply for North Carolina residency for tuition purposes. Representatives will be on hand to field questions about the process. Held in Graduate Student Center, 211A West Cameron Ave from 2pm – 3pm. To register: http://cfx.research.unc.edu/res_classreg/browse_single.cfm?New=1&event_id=22728

November 12th
10th Annual UNC Cancer Center Oncology Protocol Conference, Health Care Reform and Clinical Research
Online registration begins October 4, 2010. Registration deadline is November 12, 2010. Fee is $50. For additional information please call 919-966-4432. Held in William and Ida Friday Center, Chapel Hill, NC at 8:30pm.

High Impact Hepatology Symposium
An Update from the Major Liver Meetings. Held in the Rizzo Conference Center, Chapel Hill, NC from 4:30pm-2:30pm. For more information: http://www.highimpact-hepatology.com/

Finding a Mentor and Getting the Mentoring Relationship
Held in Wilson Library, Pleasants Family Assembly Room from 12:00pm – 1:30pm. For more information: http://www.abcsignup.com/reg/event_page.aspx?ek=0052-0006-a693ef27059c4e85944ee14fe3d8eefb. To register: https://itsapps.unc.edu/abcsignup/ABCServlet

Finding Funding for Students in the Health Sciences
Held in 307 Health Sciences Library from 3:00pm – 11:30am. Contact the GrantSource Library at 962-3463 for more information.

November 16th
International Careers Networking Night
Meet with local working professionals in an informal environment to make contacts and learn about careers. Refreshments will be served. Business casual attire recommended. Please RSVP by logging into Careerolina on the UCS homepage. Once logged in - select the Events tab and RSVP to International Careers Networking Night. Held in FedEx Global Center from 5:15pm – 6:45pm

November 17th
Teaching Portfolios
Teaching portfolios are becoming increasingly important for marketing one’s teaching credentials for new positions and for promotion and tenure in many schools. In this workshop, participants will learn the basic format of a teaching portfolio and develop ideas for their own portfolios whether they are beginning a job search or are under consideration for tenure or promotion in a current position. Lunch provided. Held in Graduate Student Center, 211A West Cameron Ave. from 12pm – 1:30pm. To register: http://cfx.research.unc.edu/res_classreg/browse_single.cfm?New=1&event_id=22765
Tools for Creating and Managing Your Own Digital Image Teaching Collection
In this workshop you will learn how to:
effectively search for images appropriate to your teaching topics,
create and manage image groups that you can share with your students,
add your own image to a "personal collections" workspace, and;
download your images to use in PowerPoint or Keynote.
Focus will be on the ARTstor system, but don't let the "ART" in its name throw you off. ARTstor is not only a digital library of nearly one million images in the arts, architecture, humanities, and social sciences, it also includes a robust "personal collections" workspace that allows you to integrate your own digital images with those found in ARTstor. Facilitated by Heather Gendron, Art Librarian, and JJ Bauer, Visual Resources Curator. Held in Davis Library, Room 247 from 2pm – 3pm. For more information: http://www.abcsignup.com/reg/event_page.aspx?ek=0052-0006-61318995948241daaf313b263ddcb5dc To register: https://itsapps.unc.edu/abcsignup/ABCServlet

Rat Handling and Techniques
The IACUC Rat Handling and Techniques class is a hands-on wet lab designed to teach students basic techniques in rat handling. Techniques taught include restraint, simple injections, bleeding techniques, anesthesia, and euthanasia. This course is mandatory for all Laboratory Animal Coordinators in laboratories working with live rats. All UNC rat handlers are welcome to attend. Alternatively, training and certification may be provided through a certified proficient Laboratory Animal Coordinator. Prerequisites: Research Profile, Lab Worker Form, Animal Handler Form, and IACUC/DLAM on-line orientation (http://cfx3.research.unc.edu/iacuc_reg/). Sponsored by Office of Animal care and Use. Held in Glaxo 148 from 10:00am -12:30pm. To register: http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22693&new=1

November 18th
Master’s and PhD Career Fair
This event is sponsored by a consortium of six outstanding North Carolina graduate schools including NC State, Duke, UNC-Chapel Hill, UNC-Charlotte, UNC-Greensboro, and Wake Forest. Participating employers can expect up to 350 masters, doctoral, and postdoctoral candidates in science, engineering, humanities and social sciences to attend. Open to: Graduate students and postdocs in all disciplines. View participating organizations at http://csc.dept.uncg.edu/phdfair/PhDFair2010.pdf RSVP is preferred but not required. Held in the Friday Center from 1:00pm – 4:30pm.

November 19th
Sell Yourself: CV and Cover Letter Writing
This is an informational session about the application process to apply for North Carolina residency for tuition purposes. Representatives will be on hand to field questions about the process. Held in Graduate Student Center, 211A West Cameron Ave. from 9:00am – 10:30am. To register: http://cfx.research.unc.edu/res_classreg/browse_single.cfm?New=1&event_id=22757

What to Expect When You’re Expecting @ UNC
A monthly orientation & information session for expectant undergraduate students, graduate and professional students, and postdoctoral scholars. Partners welcome! Topics covered include: parental leave policies, academic and career concerns, where to find support on campus, and more. REGISTRATION REQUIRED: contact Ashley Fogle. Held in The Carolina Women’s Center, 215 W. Cameron Avenue from 12pm – 2pm.

Advanced EndNote
This class is designed as a hands-on workshop for users with some EndNote experience. We will review how to import references most efficiently, using the "Cite While You Write" feature, and some more advanced features such as finding full-text and editing output styles. Please bring your questions. 5 seats available. Held in HSL- 329 from 10-11am.
November 30th
Mouse Handling and Techniques

The IACUC Mouse Handling and Techniques class is a hands-on wet lab designed to teach students basic techniques in mouse handling. Techniques taught include restraint, simple injections, bleeding techniques, anesthesia, and euthanasia. This course is mandatory for all Laboratory Animal Coordinators in laboratories working with live mice. All UNC mouse handlers are welcome to attend. Alternatively, training and certification may be provided through a certified proficient Laboratory Animal Coordinator. **Prerequisites:** Research Profile, Lab Worker Form, Animal Handler Form, and IACUC/DLAM on-line orientation (http://cfx3.research.unc.edu/iacuc_reg/). Sponsored by Office of Animal Care and Use. Held in Glaxo 148 from 10:00am-12:30pm. This event is full. To join waitlist: http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22689&new=1.

Vorticism is an abstracted figurative style, combining machine-age forms and the energetic imagery suggested by a vortex. The short-lived but pivotal modernist movement spanned the years of World War I (1914-1918). This is the first museum exhibition devoted to this Anglo-American movement to be presented in the United States. Admission $5, $4 seniors, $3 non-Duke students, FREE for kids under 16 and Duke students and faculty.
September 30, 2010 - January 2, 2011

PlayMakers Repertory Company - 'Fences'—7:30pm
'Fences' by August Wilson: Oct. 27 to Nov. 14, 2010. Paul Green Theatre. Frustration, despair, searching for dignity...to be black and male in mid-century America. Struggling against inescapable burdens of intergenerational and societal limitations, an embittered ex-Negro League ballplayer and his family take us on a profound emotional journey. PlayMakers proudly presents the long overdue debut of an August Wilson play in its main-stage season. The New York Times said that August Wilson combines 'the poet's ear for venacular with a robust sense of humor...a sure instinct for crackling dramatic incident and a passionate commitment to a great subject.' Center for Dramatic Art - Country Club Road - Chapel Hill (919) 962-7529 - http://www.playmakersrep.org/ $10-$45 depending on performance

Kremerata Baltica with Gordon Kremer, violin/leader—7:30pm
Of all the world's leading violinists, Gidon Kremer is one of the most original and compelling. With more than 100 albums, Krmer has an unusually extensive repertoire that includes standard classical and romantic works, music by 20th-century masters and contemporary composers of Eastern Europe and Russia. No other soloist of his stature has done as much for living composers in the past 30 years. Grammy-winning ensemble Kremerata Baltica is the realization of Kremer's belief that music can overcome all barriers of language and culture. Performing in the world's greatest halls, these 27 young musicians were handpicked by Kremer from among the most exceptional talent of the Baltic states, helping to create cultural bridges among three neighboring countries (Estonia, Latvia and Lithuania) with strikingly different identities. 'Sutra' - Sidi Larbi Cherkaoui / Sadler's Wells London—7:30pm
Following a lifelong interest in the philosophy and faith behind the skill, strength and spirituality of Buddhist Shaolin monks of China, celebrated Flemish/Moroccan choreographer Sidi Larbi Cherkaoui has created a new dance work inspired by the Shaolin tradition, its relationship with kung fu and it position in contemporary life. The 17 monks performing in 'Sutra' come directly from the original Shaolin Temple - China's key national Buddhist temple, situated near Dengfeng City in the Henan Province and established in 495 A.D. by monks originating from India. The Shaolin monks follow a strict Buddhist doctrine and include kung fu and tai chi martial arts in their daily regimen. The set is designed by Anthony Gormley, with music by Szymon Brzoska. Memorial Hall - 114 E. Cameron Ave - Chapel Hill  (919) 843-3333 [http://www.carolinaperformingarts.org/?pcode=946](http://www.carolinaperformingarts.org/?pcode=946)

**Is He Dead? Written by Mark Twain and adapted by David Ives**—7:30pm
Three good friends - an American, a German and an Irishman convince a fourth, a starving French painter, that the only way to succeed as an artist is to fake his own death. Jean-François disappears from life and his imaginary twin sister suddenly emerges. Directed by Marc Williams. DeepDish Theater Company - 201 S Estes Dr - Chapel Hill  (919) 968-1515 - [http://www.deepdishtheater.org/](http://www.deepdishtheater.org/) Tickets $17, $15 seniors, $12 students

**An Evening of Enchantments**—8pm
Magicians Joshua Lozoff and Micah Cover team up for a very special night of mystery and astonishment! Joshua is a Triangle favorite, known for jaw-dropping close-up magic and for sold-out shoes all over the region. His unique approach to the art of magic escapes the confines of tradition and blurs the line between reality and illusion. Based in Los Angeles, Micah is a regular performer (and tour guide) at the world-famous Magic Castle in Hollywood. He presents a captivating ghost story-themed performance that one audience member called, 'one of the most creative & original magic shows I have ever seen!' Together, Joshua and Micah will stage an evening of enchantments not to be missed! **'The Importance of Being Elegant'**—7pm
'The Importance of Being Elegant' (2004) concludes the Diaspora Festival of Black and Independent Film for the fall semester. The documentary follows an unusual club, La SAPE, in the Democratic Republic of the Congo. Its members have elevated fashion to religion, and despite economic hardship, they only wear ultra-premium labels. The film follows their leader, musician Papa Wemba, who was released on bail after allegedly smuggling illegal immigrants into Europe. Facing legal fees and a trial, he records a new album and prepares for an extravagant come-back concert in Paris.
