Upcoming TIBBS-Sponsored Events

Tuesday February 8th, 10:30 to 11:30 in Kerr Hall 1001
A conversation with Greg Forbes Siegman
Greg is the real-life inspiration for The Silhouet-ette Man by Jillip N. Paxson. The book tells the story of one young person's efforts to build bridges within the diverse world outside his window and the lessons learned along the way. Go to page 3 for more information or click here to register.
A smoothie reception with Greg will follow.

Wednesday February 23rd, 9:00 to 12:00
in Thurston Bowles 3200
Science Writing Workshop with Pam Hurley
The workshop is ideal for students writing manuscripts, proposals or dissertation. It is limited to 20 students and will focus on:

- Analyzing audience, purpose, and content
- Using language appropriately (active/passive voice; concrete versus abstract)
- Writing to meet audience needs and use
- Using the IMRAD method (introduction, methods, results and discussion) correctly, and much more

Click here for more information and to register.

Wednesday February 23 12:00 to 5:00
1-1 science writing consultations with Pam Hurley
Consultations are open to any graduate student currently writing. Samples needing feedback will be submitted to Pam by 2/14. Email patrick_brandt@med.unc.edu to request a slot.

Thursday February 24th at noon in MBRB
Nacho Bar!
Please bring your OneCard to be served
More Upcoming TIBBS-Sponsored Events

Monday February 28th, 1:00-3:00 OR 4:00-6:00 in Bondurant 4076
Interviewing Workshop with Scott Morgan
This workshop is designed to help scientists make a strong impression during a job interview. This highly interactive workshop will focus on the most common questions that applicants are likely to be asked, and how to formulate the best responses. The 2-hour workshop is limited to 6 graduate students for maximum participation. An effective strategy for job talks will also be discussed.

Please note that there are two identical workshops being offered - one from 1-3pm and a second from 4-6pm. Both are limited to 6 participants so be sure to sign up early.
Click here to register for the workshop from 1-3pm
Click here to register for the workshop from 4-6pm

Tuesday March 1st
One-on-one Public Speaking coaching with Scott Morgan
Scott Morgan, co-author of “Speaking about Science” is available to meet 1-1 with graduate students to help with issues such as:
• how to overcome public speaking anxiety
• how to give a more effective powerpoint presentation, chalk talk, or teaching lecture
• how to prepare for a job interview
Email patrick_brandt@med.unc.edu to request a slot.

Wednesday March 9th. 9:00 to 10:00 in Bioinformatics 1131
Career Opportunities in Biotech and Drug Development
Dr. Toby Freedman, best selling author of the book pictured to the right, will be on campus to talk about:
• The bench and non-bench career opportunities in biotech and big pharma
• How the workplace environment in industry compares to academia
• What skills and attributes industry hiring managers are looking for in potential PhD hires
• How to get your foot in the industry door
Click here to register

Wednesday March 23rd. 4:00 to 5:30 in Bondurant G030
Tips and trick for using MSWord to format your dissertation
Click here for more information and to register

Hold the Date: 2nd Annual Postdoc Bootcamp, April 7th at the Aloft Conference Facilities
For more information and to preregister click here
One moment in time... Ten seconds to decide... What would you do? What did he do?

A Conversation With Greg Forbes Siegman

Good Morning America buried a Time Capsule which chronicled what he decided in those ten seconds and what grew out of it in the years that followed. At this event, he will lead a discussion about the ways in which other young people can use what they have learned as students to impact the diverse world around them...and the ways in which those efforts can generate ripple effects around the globe.

“Shattering stereotypes, person by person, heart by heart...accomplishing more over brunch than many do in a lifetime.”

- Diane Sawyer on Good Morning America

February 8th, 2011
10:30 to 11:30am
Kerr Hall 1001
Reception to follow

More information and a registration link are at TIBBS.unc.edu

Thanks to the following for sponsoring Greg’s visit
- TIBBS
- The Initiative for Maximizing Student Diversity
- The Office of Diversity and Multicultural Affairs
- The Graduate School
Pioneering Postdoc Programs

Your postdoctoral training period is the ideal time to hone your skills and get needed experience that will make you the perfect candidate for the career of your choice.

There are many unique postdoc programs that train fellows in a variety of in-demand skills and these training opportunities are often shorter and more structured than the traditional academic postdoc. They teach a specific skill set and can be a fast track to a "real job" afterwards. Each month in the TIBBS Times we’ll highlight a different fellowship opportunity.

North Carolina Biotechnology Center Industry Fellowship Program

The NCBC Industrial Fellowship Program provides recent Ph.D. graduates with an opportunity to gain industry experience in local biotech startup companies. The program is for recent doctoral graduates and postdoctoral fellows who would like to transition from academia to permanent employment in the state’s life sciences industry.

Scientists who participate in the program gain industrial scientific experience and learn about the non-technical business activities associated with technology commercialization.

Click here for the program website
Eligibility Guidelines
February 2011 Seminars (page 1 of 4)

**February 1st**
“Molecular Mechanics Studies into the Evolution of Enzyme Function”
Presented by Brian Dominy, Clemson University. Sponsored by Nikolay Dokholyan and the Program in Molecular & Cellular Biophysics. Held in 1131 Bioinformatics from 11am- 12pm.

Self-assembly Required: Organizing the Fission Yeast Actin Cytoskeleton
Presented by Dave Kovar, PhD, University of Chicago. Sponsored by UNC Chapel Hill Biology Department Seminars. Held in 201 Coker Hall at 4pm.

**February 2nd**
Mapping the Landscape of Acquired Vulnerabilities in Human Cancer
Presented by Michael A. White, PhD, UT Southwestern. Sponsored by UNC Lineberger Cancer Center Weekly Seminar Series. Held in 00-002 Joseph S. Pagano Conference Room, UNC Lineberger Cancer Center at 4pm.

“Developing Small Molecule Inhibitors of ARFGAPs”
Presented by Wei Sun. Sponsored by UNC Eshelman School of Pharmacy. Held in Chapman Hall Room 125 from 12:00pm – 1:30pm

**February 3rd**
Synapse reorganization in memory formation
Presented by Yi Zuo, PhD. Sponsored by UNC Neuroscience Center. Held in 1131 Bioinformatics from 12:30pm-1:30pm.

**February 7th**
“Adipose tissue angiogenesis in metabolic disease”
Presented by Silvia Corvera, MD, Professor, Program in Molecular Medicine, University of Massachusetts Medical School. Sponsored by John Rawls. Held in G202 MBRB from 12pm – 1pm.

New biomarkers for the Risk Assessment of Exposure to Arsenic in Drinking Water
Presented by Jenna Currier. Sponsored by The Curriculum in Toxicology at UNC. Held in 1131 Bioinformatics Building at 4pm.

**February 8th**
“Regulation of the extracellular matrix, tissue stiffness and cell cycling by Apolipoprotein HDL”

Hypertension pharmacogenomics: Advances & challenges
Presented by Julie Johnson, PharmD, FCCP, BCPS, University of Florida. Sponsored by IPIT Seminar Series. Held in 1131 Bioinformatics at 4pm.
February 2011 Seminars (page 2 of 4)

**February 8th**
Embryonic Stem Cell Switches in Arabidopsis  
Presented by Jeffrey Long, PhD. Sponsored by UNC Chapel Hill Biology department Seminars.  
Held in 201 Coker Hall at 4pm.

“Genetic Determinants of Response to Clopidogrel; Strategies for Optimizing Dual Antiplatelet Therapy”  
Presented by Joseph S. Rossi, MD. Sponsored by UNC Eshelman School of Pharmacy. Held in Bioinformatics Building 1131 from 4pm – 5pm.

**February 9th**
“Inhibiting Bruton’s tyrosine kinase (Btk) as a potential therapeutic for Rheumatoid Arthritis”  
Presented by Brittany Wright. Sponsored by UNC Eshelman School of Pharmacy. Held in Chapman Hall, room 125 from 12:00pm – 1:30pm.

**February 10th**
The gating mechanism of an archael proteasome  
Presented by Tomasz Religa, PhD, University of Toronto. Sponsored by Biochemistry/ Lineberger Cancer Center Faculty Candidate. Held in 1131 Bioinformatics at 2pm.

Regulation of Synapse Formation by the WAVE associated Rac GAP Pathway  
Presented by Scott Soderling, PhD, Assistant Professor in Cell Biology at Duke University. Sponsored by UNC Neuroscience Center. Held in 1131 Bioinformatics from 12:30pm – 1:30pm.

A Neuroethological perspective on the auditory system: lessons from the t’ngara frog  
Presented by Sabrina Burmeister, PhD, UNC Biology. Sponsored by UNC Chapel Hill Biology Department Seminars

**February 11th**
“Developmental and Evolutionary Genetics of Zebrafish Pigment Stem Cells”  
Presented by David Parichy, PhD, Professor of Molecular and Cell Biology—University of Washington. Sponsored by Carolina GMB. Held in 321 MacNider Hall at 12pm.

**February 14th**
Identification of Novel SNF5 Binding Targets in Malignant Rhabdoid Tumors  
Presented by Brian Davies. Sponsored by The Curriculum in Toxicology at UNC. Held in 1131 Bioinformatics Building at 4pm.

**February 15th**
“The biochemical basis of HIV/AIDS”  
Presented by J Victor Garcia-Martinez, UNC-Chapel Hill. Sponsored by Leslie Parise. Held in 1131 Bioinformatics from 11am-12pm
February 2011 Seminars (page 3 of 4)

February 15th
Pattern Formation by Mobile Small RNAs
Presented by Marja Timmermans, PhD, Cold Spring Harbor Labs. Sponsored by UNC Chapel Hill Biology Department Seminars. Held in 201 Coker Hall at 4pm.

“Making spatial sense out of diffusible signals: cyclic-di-GMP and motility in Pseudomonas aruginosa”
Presented by Barbara Kazmierczak, MD/PhD, Yale University. Sponsored by the Burroughs-Wellcome Fund and the Department of microbiology and Immunology at UNC. Held in 1131 Bioinformatics at 9:30am.

February 17th
Moral Frameworks for Animal Research

Imaging Neuronal Morphogenesis and Axon Guidance in Vivo
Presented by Dr Mary Holloran, Associate Professor of Zoology at the University of Wisconsin-Madison. Sponsored by UNC Neuroscience Center. Held in 1131 Bioinformatics from 12:30pm – 1:30pm.

February 18th
“Alternative Splicing Regulatory Networks in Development and Disease”
Presented by Thomas Cooper, PhD., Professor of Pathology and Immunology—Baylor College of Medicine. Sponsored by Carolina GMB. Held in G100 Bondurant Hall at 12pm

February 21st
“Biochemical modulation of nociceptive circuits”
Presented by Mark Zylka, PhD, Assistant Professor Department of Cell and Molecular Physiology UNC-Chapel Hill. Sponsored by Cell and Molecular Physiology. Held in G202 MBRB from 12pm – 1pm.

February 21nd
Examination of the Adverse Effects of Concomitant Gaseous and Particulate Air Pollutant Exposure to Human Airway Epithelial Cells
Presented by Eugene Gibbs- Flourney. Sponsored by The Curriculum in Toxicology at UNC. Held in 113 Bioinformatics Building at 4pm.

February 22nd
“DNA damage signals at the replication fork”
Presented by Anja-Katrin Bielinksy, University of Minnesota. Sponsored by Jean Cook. Held in 1131 Bioinformatics from 11am- 12pm.
February 2011 Seminars (page 4 of 4)

February 22nd
Chemodiversity and Plants
Presented by Joseph Noel, PhD, Salk Institute, HHMI. Sponsored by UNC Chapel Hill Biology Department Seminars. Held in 201 Coker Hall at 4pm.

“Astrocytic Glycine Supports Excitatory Neurotransmitter Release in Developing Mouse Visual Cortex”
Presented by Portia McCoy, Sponsored by Tuesday Mini-Series. Postdoc, Philpot Lab. Held in 124 Taylor Hall from 12:30pm – 1:30pm.

“Diversity Generating Retroelements”
Presented by Jeff F. Miller, MD, UCLA. Sponsored by the Department of Microbiology and Immunology at UNC. Held in 1131 Bioinformatics at 9:30am.

February 23rd
“Infectious Disease Medicines Discovery and Development: The Challenges and Opportunities”
Presented by Zhi Hong, PhD. Sponsored by UNC Eshelman School of Pharmacy. Held in Chapman Hall, Room 125 from 12:00pm – 1:30pm.

February 24th
The Role of Neural Precursor Cell Heterogeneity During Development of the Mammalian Neocortex
Presented by Tarik Haydar, Associate Professor Anatomy and Neurobiology at Boston University. Sponsored by UNC Neuroscience Center. Held in 1131 Bioinformatics from 12:30pm – 1:30pm

February 25th
Mitochondrial Dynamics and Function During Drosophila Development”
Presented by Rachel Cox, PhD, Assistant Professor of Biochemistry & Molecular Biology – Uniformed Services University. Sponsored by Carolina GMB. Held in 321 MacNider Hall at 12pm.

February 28th
“Sudden Infant Death Syndrome and FASD: New Research Perspectives.”
Presented by Scott Parnell, PhD, Research Assistant Professor, UNC Department of Cell and Developmental Biology and Bowles Center for Alcohol Studies. Sponsored by Bowles Center for Alcohol Studies. Held in Taylor Hall Room 124 from 12:30pm – 1:30pm
February 2011 Workshops and Events (page 1 of 6)

February 1st
Teaching Skills - Effective Discussions
This workshop will emphasize the core elements of effective discussions and include simple tips to encourage your students to join class discussions. Co-sponsored with Center for Faculty Excellence, lunch provided. Held in the Graduate Student Center, 211A West Cameron Ave from 12:30pm -1:30pm.
To register: https://reg.abcsignup.com/reg/event_page.aspx?ek=0052-0006-c731112f1a-52463fa4df329b56e40b69

Mouse Handling and Techniques
The IACUC Mouse Handling and Techniques class is a hands-on wet lab designed to teach students basic techniques in mouse handling. Techniques taught include restraint, simple injections, bleeding techniques, anesthesia, and euthanasia. This course is mandatory for all Laboratory Animal Coordinators in laboratories working with live mice. All UNC mouse handlers are welcome to attend. Alternatively, training and certification may be provided through a certified proficient Laboratory Animal Coordinator. Prerequisites: Research Profile, Lab Worker Form, Animal Handler Form, and IACUC/DLAM on-line orientation (http://cfx3.research.unc.edu/iacuc_reg/). Held in Glaxo 148 from 10:00am-12:30pm. To register: http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22788&new=1

February 3rd
School of Public Health Career and Internship Fair
The Gillings School of Public Health is sponsoring the SPH Career and Internship Fair. Last year’s career fair attracted 33 employers and nearly 275 students and alumni from the School. Employers from government, for-profit, not-for-profit, academia, and research centers are seeking full-time employees and interns from all public health disciplines and degrees. Held in the Michael Hooker Research Center Atrium from 12pm – 3pm. For more information: http://www.ghfp.net/

Emotional Intelligence and Your Career
Being successful often requires more than just hard work and motivation. It takes an understanding of yourself, your co-workers, and the culture of your work-environment. Learn the skills and attributes that will help you be successful. RSVP preferred, but not required. Held in 239 Hanes Hall from 4pm – 5pm. http://careers.unc.edu/events/details/1134

February 7th
Negotiation and Interviewing Skills
This workshop will provide attendees with strategies to effectively negotiate job offers and skills to ensure successful interviews. Several experts on negotiation will be present as well as a panel who have served on hiring committees for different types of positions. Sponsored by the Graduate School. Held in the Graduate Student Center, 211A West Cameron Ave from 3:00pm - 4:30pm.
February 2011 Workshops and Events (page 2 of 6)

Effective Job Searching
Sponsored by University Career Services. Learn how University Career Services can assist you in your job search, how to search for job leads, search alumni and employer databases, and more! RSVP preferred, but not required. Held in 239B Hanes Hall from 4pm – 5pm.

February 8th
International Coffee Hour
Sponsored by Office of Postdoctoral Affairs. Held in FedEx Global Education Center, room 4003 from 5pm – 6pm.

A Conversation with Greg Forbes Siegman
Greg is the real-life inspiration for The Silhouette Man by Jillip N. Paxson. The book tells the story of one young person’s efforts to build bridges within the diverse world outside his window and the lessons learned along the way. Greg will share his story and the simple things you can do to change the world around you every day. A reception with Greg will follow. You can view, download, or print and post an event flyer at http://www.med.unc.edu/tibbs/GFSflyer.pdf. Sponsored by TIBBS. Held in 1001 Kerr Hall from 10:30am-11:30am. To register: http://cfx.research.unc.edu/res_classreg/browse_single.cfm?New=1&event=A967C552E8C1DEEEF944C942AFE3C431535B2FF7E

How to Perfect Your Resume
Sponsored by University Career Services. Learn how to construct a professional resume and write cover letters and business correspondence. RSVP preferred, but not required. Held in 239B Hanes Hall from 3pm – 4pm.

February 9th
Tips and Tricks for using Microsoft Word to format your dissertation.
For most graduate students, the PhD dissertation is the single largest document you have ever created, and learning to format and lay out a 200+ page document can suck up hours and even days of your precious time. Fortunately, there are a number of features and tricks in Microsoft Word that can make the task more manageable, and, with a little practice, can prevent your dissertation from becoming a hard-drive-crashing, unruly monster. Please bring a laptop running MSWord. A representative from the Graduate School will be on hand to answer questions that arise regarding UNC's dissertation formatting and submission requirements. Held in the Graduate Student Center, 211A West Cameron Ave from 4:00pm -5:30pm. Event is Full: To add your name to the wait list and be the first to receive information about a duplicate event in March go to: http://cfx.research.unc.edu/res_classreg/browse_single.cfm?New=1&event=3D9544C952B43EAD98A8D8D9CCB88DD7E178E32C

Rat Handling and Techniques
The IACUC Rat Handling and Techniques class is a hands-on wet lab designed to teach students basic techniques in rat handling. Techniques taught include restraint, simple injections, bleeding techniques, anesthesia, and euthanasia. This course is mandatory for all Laboratory Animal
February 2011 Workshops and Events (page 3 of 6)

Coordinators in laboratories working with live rats. All UNC rat handlers are welcome to attend. Alternatively, training and certification may be provided through a certified proficient Laboratory Animal Coordinator. Prerequisites: Research Profile, Lab Worker Form, Animal Handler Form, and IACUC/DLAM on-line orientation (http://cfx3.research.unc.edu/iacuc_reg/). Sponsored by the Office of Animal Care and Use. Held in Glaxo 148 from 10:00am-12:30pm. To register: http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22783&new=1

February 10th
Teaching Skills - Group Work
Group work is widely used in university classrooms, but group assignments need careful planning if they are to create successful learning experiences. In this workshop, you will be given a quick overview of a variety of types of group projects that can be done in university classes and some key aspects to share with your students to assist them to understand the importance of group projects. In addition, you will learn to structure, implement, and evaluate effective group projects.
Held in Wilson Library, Room 318 (CFE Conference Room) from 12:30 – 1:30pm. To register: https://reg.abcsignup.com/reg/event_page.aspx?ek=0052-0006-ada8c0ef-8fe34251b79d03e13bb2fdc

Aseptic Techniques
The IACUC Aseptic Techniques class is a hands-on wet lab designed to teach students how to maintain a sterile field during survival rodent surgery. This course is mandatory for all Laboratory Animal Coordinators in laboratories performing sterile rodent surgery. All UNC rodent users who will be performing sterile survival surgeries are encouraged to attend. Alternatively, training and certification may be provided through a certified proficient Laboratory Animal Coordinator. Prerequisites: Research Profile, Lab Worker Form, Animal Handler Form, and IACUC/DLAM on-line orientation (http://cfx3.research.unc.edu/iacuc_reg/). Sponsored by the Office of Animal Care and Use. Held in Glaxo 148 from 10am-12:30pm. To register: http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22777&new=1

February 11th
Dissertation Writing Boot Camp—session C
The boot camp meets daily from Monday February 7 through Friday February 11, 2011 from 9am–1pm each day.
Each day includes: • several blocks of writing time • scheduled, limited time for web-browsing • tip sheets • a writing strategy/activity led by Writing Center staff • a lunch conversation with fellow campers (box lunches provided) • opportunities to share writing and get feedback from fellow campers • an individual session with a writing tutor • space to continue writing in the afternoon (if interested)
Sound interesting? Click below to join the wait list. Cost: $20
Held in Writing Center -0127 SASB North from 9am-12pm. Event is full. To join waitlist: http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22837&new=1
February 15th  
**Finding Funding for students in Health Sciences**  
Sponsored by the Grant Source Library  
Held in 307 Health Sciences Library from 2:30pm – 4:00pm

February 16th  
**Myers/Briggs Type Inventory**  
The MBTI is one of the most commonly used and best researched tools for self-understanding in the field of professional development. In this workshop participants will have the opportunity to score themselves on the instrument, test the results against their own self-understanding and to estimate their Myers Briggs Type. Participants will then consider the implications of the framework and their own scores for enhancing their performance in the realms of teaching, leading, and research. Sponsored by The Graduate School. Graduate Student Center 211A West Cameron Ave from 12:00pm – 1:30pm.

**Basic EndNote**  
This Basic EndNote class will touch on the fundamental functions of the EndNote software. Building your library, managing your sources, and inserting your citations into your documents will be the focus of what we will cover. This class is structured for new to beginning users. 13 seats available. Held in HSL-329 from 10am-11am. To register: [http://www.hsl.unc.edu/Services/Classes/classregistration.cfm](http://www.hsl.unc.edu/Services/Classes/classregistration.cfm)

February 17th  
**Nothing but NETworking**  
Is it really who you know, and not what you know that will get you hired? Find out what you need to know about networking—what it is, productive techniques, and the results. Wouldn’t you rather be NETworking than NOT working? RSVP preferred, but not required. Held in 239B Hanes Hall from 4pm -5pm.

**Mouse Handling and Techniques**  
The IACUC Mouse Handling and Techniques class is a hands-on wet lab designed to teach students basic techniques in mouse handling. Techniques taught include restraint, simple injections, bleeding techniques, anesthesia, and euthanasia. This course is mandatory for all Laboratory Animal Coordinators in laboratories working with live mice. All UNC mouse handlers are welcome to attend. Alternatively, training and certification may be provided through a certified proficient Laboratory Animal Coordinator. Prerequisites: Research Profile, Lab Worker Form, Animal Handler Form, and IACUC/DLAM on-line orientation ([http://cfx3.research.unc.edu/iacuc_reg/](http://cfx3.research.unc.edu/iacuc_reg/)). Sponsored by the Office of Animal Care and Use. Held in Glaxo 148 from 10:00am-12:30pm. To register: [http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22789&new=1](http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22789&new=1)
February 2011 Workshops and Events (page 5 of 6)

February 18th
Establishing NC Residency for Tuition Purposes
This is an informational session about the application process to apply for North Carolina residency for tuition purposes. Representatives will be on hand to field questions about the process. Sponsored by The Graduate School. Held in the Graduate Student Center, 211A West Cameron Ave from 3pm -4pm. To register: http://cfx.research.unc.edu/res_classreg/browse_single.cfm?New=1&event=D7E6B3A4F7E1E00784F2E4D802E30BF77CEE646E

February 22nd
Teaching in Summer School
Teaching a summer session course presents special challenges for instructors and students. The accelerated pace and shortened schedule makes it difficult to accomplish the same outcomes that one expects to achieve in a 16-week semester. In this session, you will have the opportunity to develop strategies to design and deliver effective summer session courses and also to discuss the effects that these special conditions impose on teaching and learning. Held in Wilson Library, Room 318 (CFE Conference Room) from 12:30-1:3pm To register: https://reg.abcsignup.com/reg/event_page.aspx?ek=0052-0006-7bc7440456d946ff8efb975f9fb31b3b

Laboratory Animal Coordinator Lecture
The Laboratory Animal Coordinator (LAC) Lecture orients newly appointed Coordinators to the duties and responsibilities of being a LAC. This lecture is mandatory for all newly appointed LAC’s and all Principal Investigators are encouraged to attend. Class size is extremely limited, so newly appointed LAC’s or PI’s are given preferential seating. Please speak with a member of the Office of Animal Care and Use (966-5569) should the class be full, yet you require preferential seating. Sponsored by the Office of Animal Care and Use. Held in Bioinformatics Building, room 4137 from 10:00am -10:45am. To register: http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22773&new=1

RefWorks
In this RefWorks class, participants will learn how to create an account, collaborate and share references with a group account, navigate the RefWorks interface, create citations in RefWorks, and organize references. Participants will also learn how to create bibliographies and in-line citations in documents using Write-N-Cite. 29 seats available. HSL-307 from 10am-11am. To register: http://www.hsl.unc.edu/Services/Classes/classregistration.cfm

Mandatory Breeding Policy Lecture
This course is mandatory for all Principal Investigators and mouse handlers with breeding colonies. The one hour lecture reviews the Institutional policy concerning cage population densities, housing, and breeding mice. Sponsored by the Office of Animal Care and Use. Held in Bioinformatics Building, room 4137 from 11am -12pm. To register: http://cfx.research.unc.edu/res_classreg/reg_person_auth.cfm?event_id=22769&new=1
February 2011 Workshops and Events (page 6 of 6)

February 25th
What to Expect when You’re Expecting
An informal orientation and information session for expectant undergraduate students, graduate and professional students, and postdoctoral scholars. Partners welcome! To register email Ashley Fogle: fogle@unc.edu. Held in Carolina Women’s Center, 215 West Cameron Ave.

Advanced EndNote
This class is designed as a hands-on workshop for users with some EndNote experience. We will review how to import references most efficiently, using the “Cite While You Write” feature, and some more advanced features such as finding full-text and editing output styles. Please bring your questions. 13 seats available. Held in HSL-329 from 1pm – 2pm. To register: http://www.hsl.unc.edu/Services/Classes/classregistration.cfm

PhD Comics by Jorge Cham, PhD
Cheap Things to Do Around Campus in February (page 1 of 4)

**Groupon**
Groupon is a website that offers deals on things to do, services, and places to eat in your area.
http://www.groupon.com/raleigh-durham/

**Living Social**
Offers one deal every day with discounts of up to 90% at local restaurants, bars, spas, theaters, and more.

Yoga at the Garden
February 13th & 27th
UNC Botanical Garden
Enjoy the benefits of a mindful yoga practice—emphasizing relaxation and restoration—in the beautiful Growing Classroom of the new Education Center. Huge windows look out onto the Garden’s Nature Trails and let in ample light. Perfect for Gardeners and nongardeners alike. Bring a yoga mat if you have one; a limited number of mats will be available. Register ahead OR just drop-in. Fee: $10 per Sunday ($5 NCBG members)
