**Thurs./September 6th in MacNider 328: Scott Morgan Interviewing Workshop and One-on-One Consultations**

Scott Morgan, a professional public speaking coach and consultant to the postdoc office at NIH, is coming from Washington, DC to help you hone your interviewing or public speaking skills. See below for information about his interviewing workshop and opportunities to practice your next talk with him one-on-one.

**One-on-one consultations:** 30 minute meetings available from 8:30 - 1:15

Scott can help you with any aspect of public speaking you find challenging including dealing with stage fright, organizing your presentation, delivery tips, effectively fielding questions, and more. He will help you to perform to your highest potential in your next talk. Please email erin_hopper@unc.edu to register for a one-on-one session.

**Interviewing Workshop:** 1:30 - 3:30 pm

This workshop is designed to help scientists make a strong impression during a job interview. This highly interactive workshop will focus on the most common questions that applicants are likely to be asked and will teach you how to formulate the best responses. The 2-hour workshop is limited to 7 students for maximum participation. An effective strategy for job talks will also be discussed. **Fri./September 7th at 12 pm in Bioinformatics 1131: NSF Graduate Research Fellowships: Enhancing your Competitiveness**

In this workshop presented by Dr. Ashalla Freeman and other NSF GRFP reviewers, you will learn about the NSF GRFP application process and what reviewers are looking for in your application. A panel of application reviewers and fellowship awardees will share their insights about developing and reviewing competitive applications. Of the students who attended this workshop last year, 3 won NSF GRFs and 4 were awarded honorable mentions. Workshop attendees who choose to apply for this NSF fellowship may receive feedback on their application by one of our NSF GRFP reviewers (dependent upon reviewer discipline and availability).

Recruitment Lead for BD’s Technology Leadership Development Program (TLDP), a type of industry postdoc. As a graduate student at UNC, she developed a prototype for an artificial liver and was one of the first to earn an HHMI-sponsored Certificate in Translational Medicine. After graduation, she became a TLDP fellow in the Cell and Tissue Technology division of BD. Dr. Turner will talk about her transition from graduate school to industry and how UNC grad students can apply for the TLDP. She will be available for a brief networking reception with interested students from 12:45-1:00 in the lobby outside Bioinformatics 1131. This event is part of the Translational Medicine Lunch and Learn series sponsored by the Certificate Program in Translational Medicine. Lunch will provided to all who register. Denise Saunders: Where’d the time go? - Strategies for balancing research productivity and life
Do you ever find yourself wondering what happened to the hours in the day, whether you got much accomplished or how to fit in time for fun? In a culture of busyness this is challenging, and graduate school is no exception. This workshop will explore principles of time management to help assist you in prioritizing what needs to be done so that you can feel a greater sense of accomplishment, reduce stress associated with a busy schedule and find time for the things that matter the most in your life. Participants will have an opportunity to prioritize current “to do’s” and create action plans to more effectively manage them. To register: http://tinyurl.com/8lkwn4t

We need photos!
A new BBSP website is in the works, and we would like to collect images from research around campus (immunofluorescence, graphics, journal covers, people working in labs, etc.) for use on the site. The images need to be in the highest resolution available and at a minimum of 900 pixels wide if possible. Submit images by email to Anna O’Connell and please include a small photo credit and one line description for display. If the image is too large to email directly, email Anna so that she can pick up the file. The deadline for submission is Friday September 14th.

The UNC Initiative for Maximizing Student Diversity (IMSD) Program would like to invite the UNC community to the 2012 IMSD Biomedical Research Symposium on Friday, November 2nd from 8:30 AM to 2:30 PM. This symposium will offer a unique platform to share research findings, exchange ideas and build connections within UNC-CH and between North Carolina universities. Additionally, it will highlight graduate research conducted by underrepresented students in the biomedical sciences. The keynote address will be delivered by Fernando Camargo, PhD, a leading researcher in adult stem cell biology, organ size regulation, and cancer at Harvard University. Questions? Email imdsymposium2012@unc.edu.

Your Professor’s Aura of Logical Distortion

Stuff seems to make sense → Stuff doesn’t make sense

The frustrating phenomenon by which things appear to make sense when your advisor is there, but stop making sense as soon as they walk out the door.

Huh. That totally makes sense.

## Pioneering Postdoc Programs

The residency program is a 24-month corporate experience and networking opportunity that is unsurpassed for postdoctoral researchers interested in opportunities in the life sciences industry. The program sequence consists of the following components:

- **Spring enrollment (January 2013 start) in the Postdoctoral Professional Masters (PPM) program at Keck Graduate Institute, a 9-month accredited masters program that helps PhDs acquire the business and management skills needed to pursue either R&D or management careers within the life sciences industry. For more information on the PPM program please click [here](#).**

- **A paid summer internship at Regeneron in Tarrytown, New York.**

- **Upon completion of the PPM degree, the postdoctoral residents return to Regeneron in New York to participate in a 1-year residency program in one of the following groups: Regulatory, Program Management, or Process Development (placement is based on experience and fit). Please visit our [website](http://www.kgi.edu/academic-programs/postdoc-professional-masters-program-%28ppm%29/corporate-postdoctoral-residency-programs.html) to find a detailed job description.**

This year Regeneron offers three resident positions:

- **KGI Corporate Postdoctoral Residency Program - Regulatory Associate**
- **KGI Corporate Postdoctoral Residency Program - Preclinical Manufacturing and Process Development**
- **KGI Corporate Postdoctoral Residency Program - Project Associate II**

For more information about the positions, the application process, or the PPM program, please check our website: [http://www.kgi.edu/academic-programs/postdoc-professional-masters-program-%28ppm%29/corporate-postdoctoral-residency-programs.html](http://www.kgi.edu/academic-programs/postdoc-professional-masters-program-%28ppm%29/corporate-postdoctoral-residency-programs.html)

---

The application deadline is September 11th, 2012. An application consists of the following:

- **A cover letter addressed to Regeneron citing your interest in the specific job position that you are applying for. (Separate cover letters if you are applying for more than one position.)**
- **A completed application form to the PPM program. Click [here](#) to begin the application form.**
- **A resume**

Keith Sockman, UNC Chapel Hill, Coker/Kier Lab at 12pm.

**September 8th**
Cell and Developmental Biology Seminar
Wolfgang Leidtke, Duke University. Held in 124 Taylor Hall at 12 pm.

**September 10th**
The Molecules and Mechanics of Cell Shape Change in Cytokinesis
Amy Shaub Maddox, PhD, Universite de Montreal. Sponsored by Department of Pathology and Cell Biology. Held in G202 MBRB from 12 pm to 1 pm.

Optimization and Application of Lipid Protamine DNA (LPD) Based Gene Therapy
Yuhua Wang, PhD, Sponsored by Division of Molecular Pharmaceutics. Held in Beard Hall 116 at 4 pm.

Toxicology Department Seminar
Jessica Sorrentino (Advisor-Sharpless) Held in Bioinformatics Bldg. 1131 from 4 to 5 pm.

**September 11th**
Physiologic implication of Herpesvirus Latency
Erik Barton, Ph. D., Wake Forest University. Sponsored by Department of Microbiology and Immunology. Held in 1131 Bioinformatics at 9:30 am.
School of Nursing Ethnic Minority Visiting Scholar Lecture
Donna E. Shalala, PhD., University of Miami, Sponsored by School of Nursing. Held in Alumni Center, George Watts Hill from 3:30pm to 6 pm.

UNCNC Fall Seminar Joint Lecture
William Snider, MD, UNC Chapel Hill. Sponsored by Neurobiology Department. Held in 1131 Bioinformatics from 12:30 to 1:30pm.

Behavioral Neuroscience Seminar Series
Charlotte Boettiger, PhD, UNC CH. Held in Davie Hall Room 202 from 12:30 to 1:30 pm.

September 12th
Chemical Tools for Studying Glycans in Living Organisms
Peng Wu, Prof. of Biochemistry, Albert Einstein College of Medicine. Held in Beard Hall 116 at 12 pm.

Cue control of reward seeking: Stories from deep in the brain
Edda Thiels, UNC Chapel Hill, Held in Taylor Hall room 110 from 5:15 to 7:00pm.

September 13th
UNCNC Fall Seminar Joint Lecture
William Snider, MD, UNC Chapel Hill, Held in 1131 Bioinformatics from 12:30 pm to 1:30 pm.

Jill B. Hamilton, PhD, RN. UNC Chapel Hill. Sponsored by School of Nursing. Held in 101 Rosenau Hall from 1 pm to 2:15 pm.

GMB Friday Seminar
Scott Soderling, PhD, Assistant Professor of Cell Biology, Duke University. Sponsored by Mark Peifer. Held in G202 MBRB at 12 pm.

Nescent working groups: Evolution of reaction norms, and maybe ecology of natural selection
Joel Kingsolver, UNC Chapel Hill, Coker 215 at 12 pm.

September 15th
Cell and Developmental Biology Seminar
Christopher Geyer, East Carolina University. Held in 124 Taylor Hall at 12 pm.

Estimating the Quantile Function
James Ramsay, PhD, Professor Emeritus, McGill University. Sponsored by the School of Public Health. Held in 1301 McGavran-Greenberg from 3:30 to 4:30 pm.

September 17th
Regulation of Cardiac Hypertrophy, Energy Metabolism, and Mitochondrial Function by the Ubiquitin Ligase Muscle Ring Finger – 1 (MuRF1)
Monte S. Willis, MD, PhD. UNC Chapel Hill. Held in G202 MBRB from 12 pm to 1 pm.

MOPH Seminar
Samir Mitragotri PhD, University of California, Santa Barbara. Held in Beard Hall 116 at 4 pm.

Toxicology Department Seminar
Christopher Sproul (Advisor-Cordeiro-Stone) Held in 1131 Bioinformatics from 4 to 5 pm.
September 18th
Influenza Pandemic: Past and Future
Yoshihiro Kawaoka Ph. D., DVM. University of WI-Madison. Sponsored by Department of Microbiology and Immunology. Co-Sponsored by BD Technologies. Held in 1131 Bioinformatics at 9:30 am.

Vascular dysfunction in solid tumors: from inflammation to angiogenesis
Andrew Dudley, PhD, UNC Chapel Hill. Held in Pagano Conference Room LCCC 1131 from 11 am to 12 pm.

Tuesday Mini-Series: Department of Neuroscience
Whitney Heavner, UNC Chapel Hill, Held in Taylor Hall room 124 from 12:30 to 1:30 pm.

September 19th
Directed Evolution and Rational Design of A High Affinity Therapeutic Interleukin-2
Tim O’Leary, UNC Department of Chemistry, Held in Beard Hall 116 from 12 pm to 1:30 pm.

September 20th
Optogenetics: Tools for Controlling Brain Circuits With Light
Edward Boyden PhD, Feng Zhang PhD, Massachusetts Institute of Technology. Held in 1131 Bioinformatics from 12:30 pm to 1:30 pm.

September 21st
What I did on my Summer (and Spring) vacation
Maria Servedio, UNC Chapel Hill, Coker 215 at 12pm.

Estimating person-centered treatment effects using instrumental variables: Application to prostate cancer treatments
Anirban Basu, UNC Chapel Hill. Held in 133 Rosenau Hall from 12 pm to 1:30 pm.

September 22nd
Cell and Developmental Biology Seminar
Richard Benninger, Vanderbilt University. Held in 124 Taylor Hall at 12 pm.

Uniform Approximation of VC Classes
Andrew Nobel, PhD, UNC Chapel Hill, Sponsored by the School of Public Health. Held in 1301 McGavran-Greenberg from 3:30 to 4:30pm.

September 24th
Compromise of Purinergic Regulation of ENaC in the Distal Nephron causes Salt-Sensitive Hypertension
James D. Stockand, PhD, University of Texas Health Science Center at San Antonio. Held in G202 MBRB from 12 pm to 1 pm.

Combination Delivery of Gemcitabine Monophosphate and VEGF siRNA in A Single LCP Nanoparticle for Effective Treatment of NSCLC
Yuan Zhang, UNC-CH. Held in Beard Hall 116 from 4 pm to 5pm.
Toxicology Department Seminars: Jenna Currier (Advisor-Styblo). Held in 1131 Bioinformatics from 4 to 5 pm.
