

ImPACT Internship Opportunity

Business Development Associate at Pulvinar Neuro. <http://www.pulvinarneuro.com/>

Internship scope of work:

- Work with senior leadership to find new market opportunities and build the business case around those opportunities
- Research organizations and individuals to find new partnering opportunities; potentially assist in partnership building activities
- Support senior leadership in the development of various types of deliverables, potentially including financial models, pitch decks, and executive style presentations
- ... as well as additional tasks based on student interest and company needs.

Supervisor: Leah Townsend, Ph.D. | President
